ABSTRACT

Instructional materials for helping eighth-grade students to expand their driving-related vocabulary and to become familiar with the driving laws and knowledge needed to pass the California driver's examination are presented in this unit from the Greenfield Express Management System (GEMS) program, a California Demonstration Program in Reading. A project overview form from the California Centers for Educational Improvement (CCEI) describes the GEMS program and lists other units included in the program. The driving unit includes: (1) instructions for the teacher for presenting the unit; (2) answer keys for the student materials; (3) three student worksheets; (4) a word-find puzzle; (5) a crossword puzzle; (6) materials and instructions for a board game designed to teach driving concepts; (7) a sample California driver's license application form; (8) a sample of the written portion of the California driver's examination; and (9) a suggested follow-up activity. Much of the material refers to specific pages in the "California Driver's Handbook." (DC)

Greenfield Union Elementary School District

ABSTRACT:

GEMS: Greenfield Express Management System is designed to meet the reading and language arts needs of middle or junior high school students by using both classroom and lab instruction. The basic component of the classroom program is the diagnostic and prescriptive skill sequence which can also be adapted to a lab situation. The general student objectives are to master skills at ten levels in vocabulary, phonetic analysis, structural analysis, factual comprehension, inferential comprehension, and research. Around this framework, the total classroom is developed through the use of many different kinds of English and reading materials including skill-oriented mini units written by the staff. In the lab, concentration is on vocabulary, comprehension skills and reading rate together with a "Pride and Confidence" unit. In both the classroom and the lab there is emphasis on student success and improved self concept.

TEACHER'S GUIDE

This unit is based on information in the California Driver's Handbook. It is meant to be of high interest as well as to build vocabulary. It should also help students become familiar with the laws and knowledge needed to pass the written driver's test and be a safe responsible driver when the time comes.

The California Driver's Handbook, Road Sign Chart, application form, and sample test used in this unit are available from the local Department of Motor Vehicles.

After the handbook has been read, it is suggested that the various student components of this unit be used in the following sequence:

1. Worksheet #1
2. Worksheet #2
3. Worksheet #3
4. Word Find
5. Crossword
6. Game (May be played more than once.)
7. Application Form
8. Test

The reading of the handbook and the completion of the first five unit components should assure some success and more enjoyment for students playing the game.

Materials needed for game:

Game board (sample included in unit), 1 colored die*, game cards glued to the right colored cardstock or construction paper and cut, markers for each player, answer key and game rules for student to use (included in unit).

*Hint: To make a game die, use red, green, and yellow permanent felt tip markers and mark a white die accordingly: side with one and six, yellow; side with two and five, red; side with three and four, green.

PLACE CARDS ON CORRECT COLORS

SAMPLE GAME BOARD

"KEYS PLEASE"

Game Rules

Suitable for 2-4 players. Before play, place markers on start. Place question cards on corresponding colored circles in middle of board. Elect a moderator to look up answers in answer key. (This can be one of the players.)

START PLAY

To determine who will go first, each player may toss the die once. Player with the highest toss goes first. The player tosses the die and draws the card that corresponds to the color showing on top of the die. (Example: Red "five" is showing so player must draw a red card and answer the question correctly before moving his marker 5 spaces.) If the player is unable to answer correctly, he cannot move his marker and the next player gets to toss the die. Proceed around the table clockwise.

FREEWAY

If a player lands on the space marked "Freeway" he/she will be eligible to try to enter "Freeway" next time it is his/her turn. To enter "Freeway" you must toss the die and have the yellow "one" showing. If you throw any other number you must proceed on the highway around the board.

DETOUR

If a player lands on the space marked "Detour" he/she must take the detour next time it is his/her turn.

Game cards that have been drawn are not to be placed back on the gameboard until one of the colors has been depleted. The cards may then be shuffled and placed back on the gameboard.

 - Permitted if you are turning right
 - Against the law

 - Never have the right-of-way
 - Are always driven too fast
 - Are hard to see
- You must make a financial responsibility report after an accident when anyone is injured or killed:
 - No matter who was at fault
 - Only if it was your fault
 - Only if you are not insured
- This sign means:
 - Divided highway ahead
 - Side road ahead
 - Fewer lanes ahead
- These signs mean:
